Proposed Solution:

S. No.	Parameter	Description
1.	Problem Statement (Problem to be solved)	Old people who need pill reminder and self-assistance because they don't want to skip their medicines.
2.	Idea / Solution description	Create a web application which reminds the tablets name and time & create a smart watch which can be able to ring an alarm and vibrate on time.
3.	Novelty / Uniqueness	Deaf people can easily remind the tablet time with the vibration in the smart watch.
4.	Social Impact / Customer Satisfaction	Customers are satisfied when they intake their medications on time and they feel healthy.
5.	Business Model (Revenue Model)	Through our web application the revenue can be made in the form of pop-up advertisements, overlay ads from third party services.
6.	Scalability of the Solution	Large number of people can be supplied with the wearable devices to ensure their safety and they can easily set their medication time in the web application.
